

An Upgraded Bathroom Utopia Awaits You

From Inspiration to Installation, MODA Stays A Step Ahead

When turning your bathroom space into a relaxing oasis, make sure to finish it off with elevated touches. Amp up your bathroom's comfort level by adding heated towel racks, in-floor radiant heating, and stylish accessories. Get a spa-like experience without leaving your home!

Drape Yourself in Warmth

Comfort doesn't have to end when stepping out of the shower, envelop yourself in a toasty towel. Amba Towel Warmers keep your bath towels warm and dry, which helps to prevent mildew.

These useful warmers can be attached to the bathroom wall and come in a variety of styles, high-quality finishes, and widths, to fit your space. Even dry, wrinkled clothes can be refreshed when placed on a towel warmer.

Keep Your Toes Cozy

SunTouch in-floor radiant heating is comfortable, energy-efficient, and unobtrusive. While all flooring materials

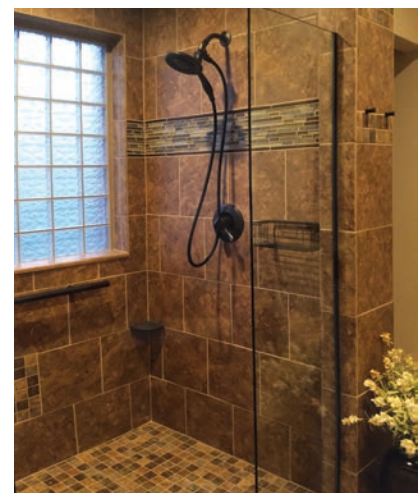

can be placed atop heated floors, some are better suited than others. Materials with thermal-conducting properties such as stone, concrete, and ceramic tile all conduct, transfer, and hold heat more effectively.

Accessory Options Galore

TileWare accessories come in multiple finishes and metals to complement the style of any bathroom. Whether you're looking for in-shower storage options like baskets, glass tile shelving, and hooks, or functional pieces like grab bars or foot props, the staff at MODA has the know-how to make your bathroom perfect for you.

Get Peace of Mind

A MODA Floors & Interiors project consultant can help you choose the right products for your home. From design inspiration to installation, the design pros at MODA can help you determine what you want and how to make it happen.
